RMIT University backs Vietnam with new AU\$250m strategic investment fund

June 03, 2023 - 16:19

Like 15 Share

Today, in the presence of the Prime Minister of Australia, the Honourable Anthony Albanese MP, RMIT University announced the next phase of its Country Commitment to Vietnam, including a AU\$250 million strategic investment fund.

**Aviation
Academy**

RMIT Aviation Academy has been established to bring together the capability across the University in support of the global efforts in addressing aviation workforce training and education needs through the university's multi-disciplinary scope and world-class standing in the sectors of education and aviation.

The Aviation Academy is promoted as an agile enterprise that is able to swiftly respond to skills needs and market opportunities, offering a comprehensive aviation-related curriculum and work integrated learning ethos to aviation professionals through an 'eco-system' or 'student lifecycle' approach.

Our Vision

To be a globally respected Academy of choice for quality end-to-end market solutions supporting a safe and sustainable industry.

We will extend our positive impact across Southeast Asia, with RMIT Vietnam as the cornerstone of our capabilities and reputation in the region.

We will mobilise the global RMIT community of students, alumni, staff and partners into a distinctive ecosystem that's intentionally connected for collaboration.

Our Mission

To inspire, educate and cultivate a proficient global aviation workforce through teaching excellence and enterprise in a collaborative, inclusive environment that promotes lifelong learning.

We will design and scale truly innovative education solutions, focused on future industry that will support accessible skill development for every learner at every stage.

And we'll be known for our translational research to help solve real and pressing problems – the very definition of knowledge with action, to help achieve an inclusive, sustainable future.

01 - Operational Excellence

Delivering globally recognised education and training in the field of technical and non-technical skills development through innovative learning pedagogy.

03 - Global Integration & Collaboration

Leverage strong partnerships to maximise social, cultural, and economic impact through local, regional, and global networks, including our presence in Vietnam, Singapore, China and Hong Kong.

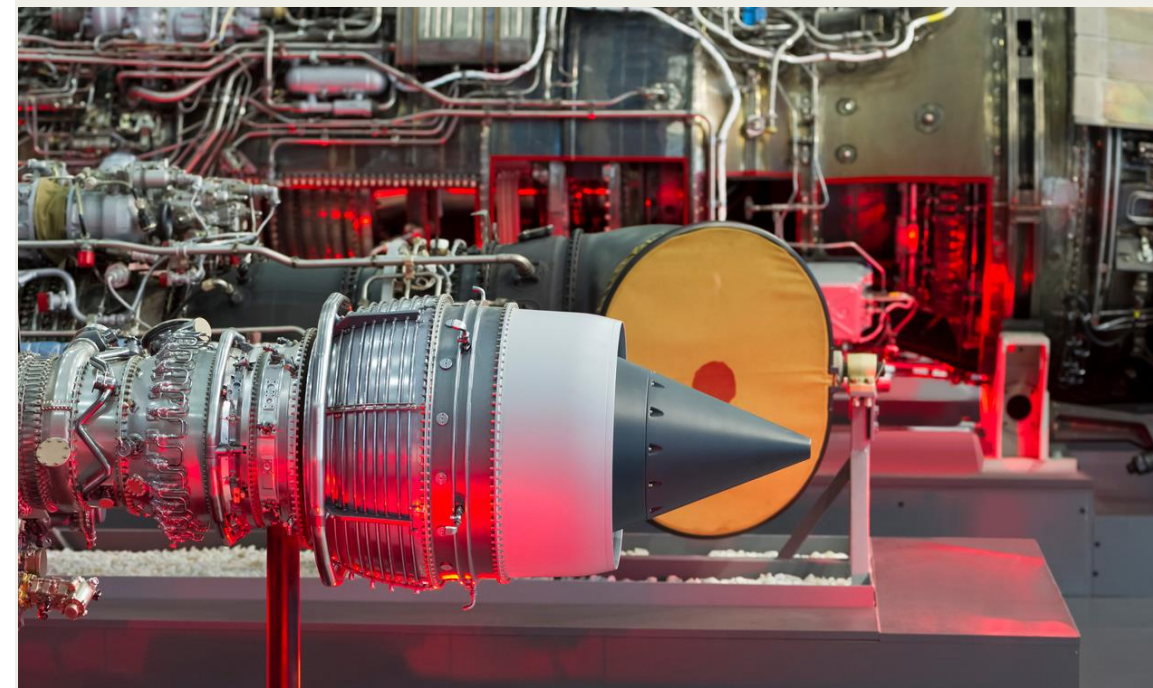

02 - Workforce Sustainability

Support and advance industry's efforts to enhance organisational diversity, resilience and capability for the future through pathway programs to support every learner at every stage of their career.

04 - Research, Innovation & Entrepreneurship

Facilitate industry relevant programs and initiatives to develop competitive products and services that support aviation workforce development, safety standards and social innovation.

Our Goals

Bespoke Course Delivery

Growing suite of courses to support learners at all stages in their career, across the aviation ecosystem.

50+ COURSES

Specialising in flight operations, human factors, air traffic management, airport development, AAM/eVTOL emerging technology, policy and thought leadership.

Global Tertiary Qualifications

RANKED IN #1 IN OCEANIA

RMIT is renowned for our aviation programs, with long-standing industry connections, leading research and the teaching expertise to help you launch your flying or management career in Australia and internationally.

- Diploma of Flying (Airline) Cadetship
- Associate Degree in Aviation
- Bachelor of Applied Science (Aviation)
- Masters of Science (Aviation)

Commercial Flight Training

Civil Aviation Safety Authority (CASA) and Civil Aviation Authority of Vietnam (CAAV) Approved Part 141 & 142 Operator

300+ PILOTS per year

Trained across 2 locations in Victoria, Australia, in a brand-new modern fleet of 24 aircraft purchased in 2021.

Research & Industry Partnerships

Industry and Government partnerships such as the:

AUSTRALIAN TRANSPORT SAFETY BUREAU (ATSB)

in delivering world leading safety investigation training for air, marine and rail accident investigators.

Australian Government Aviation Green Paper

“A safe, efficient, sustainable, productive and competitive aviation sector is critical to the economy and the standard of living of all Australians.”

Minister Catherine King

Key objectives for the aviation sector

Safety and security

Minimising environmental impacts and achieving net zero 2050

Promoting sustainable competition, workforce and productivity growth

Consumer protection and access for passengers and other aircraft users

The government has committed to delivering a new Aviation White Paper to guide continued recovery of the Australian aviation industry from the COVID-19 pandemic and maximise opportunities for growth, innovation and sustainability.

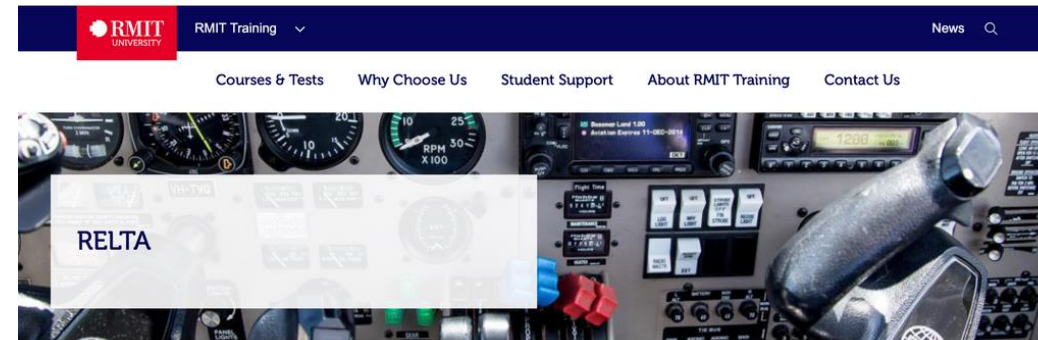

The White Paper will examine the government policy and economic reforms necessary to promote the efficiency, safety, sustainability, productivity and competitiveness of the aviation sector through to 2050.

CBTA & Workforce Development

RMIT English Language Test for Aviation

RELTA (RMIT English Language Test for Aviation) is designed for pilots and air traffic controllers who must demonstrate their English language proficiency for licensing purposes. The test assesses a candidate's ability to speak and understand English in aviation contexts, including routine and non-routine radiotelephony communication contexts, with a focus on plain English.

Delivered using a secured web browser

Listening and speaking components

Examiner and rater training provided
